LAUNDERING & CARE OF CUSTOM OUTERWEAR

GENERAL CARE

- ▶ Hang all wet garments to dry after use in rain or wash
- ▶ Do not leave wet garments balled up in bag or locker

WASHING

- ▶ All garments should be washed in cold water. Rinse temperature should not exceed wash cycle by more than 10 degrees
- ▶ Wash with mild detergent (pH under 10.0) i.e. Ivory or Biz
- ▶ DO NOT USE chlorine bleach or any form of bleaching agent, whitener, brightener or laundry booster

DO NOT DRYCLEAN YOUR OUTERWEAR

DRYING

- ▶ For best results garments should be hung to drip dry. When tumble drying use lowest temperature or "air setting"
- ▶ Remove garments immediately after drying

RESTORING WATER-REPELLENCY

- ▶ After numerous wearing of your garment in the rain or washing you may notice the water is not beading as much on the fabric. Your Teflon HT finish is not gone; it's simply absorbed into the shell fabric. TO RESTORE THE BEADING QUALITY SIMPLY:
 - ▶ Place your garment in a dryer, on medium temperature, (100°) for 10 minutes
- OR:
 - ▶ Iron your garment at very low temperature with a towel between the garment and the iron.
